Accreditation

East Valley Institute of Technology Adult Education is Accredited by the Commission of the Council on Occupational Education, 7840 Roswell Road, Building 300, Suite 325 Atlanta, GA 30350, Telephone: 770-396-3898 / FAX: 770-396-3790, www.council.org and by the Administration for Veterans Training.

EVIT is a public non-profit institution recognized by the Arizona Department of Education as an accredited Career and Technical Education institution.

Definitions & Disclaimers

Certificate Programs

A formal award certifying the satisfactory completion of a postsecondary education program & is essentially the process of publicly attesting that a specified quality or standard has been achieved or exceeded (AMTA Definition).

Programs on Demand

EVIT Adult Education offers short term, on demand training programs to meet business, industry and community training needs. Course offerings are based on student request and student enrollment. Students are welcome to submit their requests to the EVIT Adult Education Admissions Department 480-461-4013.

Blended Programs

EVIT high school programs offer a limited number of seats for adults who want a daytime/2.5 hour schedule. Adults over the age of 22 enrolling in a high school program will need a DPS Fingerprint Clearance Card prior to starting class. Contact an enrollment adviser at 480-461-4013 for detailed information. Blended Programs do not qualify for Government Financial Aid and only offer a Certificate of Training.

Licensure

A non-voluntary process by which an agency of government regulates a profession. It grants permission to an individual to engage in an occupation if it finds that the applicant has attained the degree of competency required to ensure the public health, safety, and welfare will be reasonably protected.

Licensure Disclaimer

EVIT Adult Education courses and programs prepare students for entry into a variety of professions. Many of these professions require that a person hold an occupational license or certificate in order to work in a particular field. Typically, a person must meet certain legal requirements before obtaining such a license or certificate. These requirements are established by county, state or federal agencies and often are based on a person's character, or whether the person has been convicted of a criminal offense. It is possible for a student who has obtained a certificate from EVIT to be denied the right to work in a particular profession after completing the certificate because of concerns over the student's character or criminal background. Any student preparing to enter a field for which a professional license or certificate is required is strongly advised to consult with the appropriate government agency that issues such credentials. That agency can provide the student complete information about any requirements the law imposes for working in a particular occupation.

Anti-Discrimination Policy

EVIT does not discriminate on the basis of race, color, gender, national origin, disability, religion or age in its programs, services or activities. Compliance: Title IX, Title VI, Section 504 of the Rehabilitation act of 1973, the Americans with Disabilities Act of 1990, and Drug Free Workplace Act of 1988. For information regarding discrimination grievance or complaint procedures, contact the Director of Adult Education at 480-461-4018.

Student Insurance

It is important students recognize EVIT does not have insurance to cover injuries students may sustain while in class related activities **not conducted on EVIT property**. Students are encouraged to obtain coverage through their family medical plan or purchase separate medical insurance through an optional district approved vendor. Medical insurance informational pamphlets are available at the Adult Education Center information counter. EVIT is not responsible for personal injury or loss of property while on campus

Tuition and Fees:

Tuition and fees are approved by the EVIT Governing Board and are subject to change without notice.

EVIT Adult Education Student Handbook Policies & Procedures:

Please refer to the EVIT Adult Education Student Handbook for assistance with operations, policies, procedures, compliance and regulatory guidelines not provided in this Catalog:

AESTHETICS

CS14A

Specialize in the science of skin care and develop a thorough understanding of all aspects of the industry basics including waxing, makeup techniques, facials and general knowledge of the spa industry. Learn techniques for skin analysis, deep pore cleansing, exfoliation and specialized treatments including dermaplaning, peels and body treatments. The program is heavily focused on the practical application of skills to prepare the student for the Arizona State Board of Cosmetology exam for Aesthetics after completing the required 600 hours.

*Saturday class will be scheduled once a month for clinical hours from 10:00 AM to 3:00 PM and is mandatory.

BARBERING CS15

A barber is a professional who cuts, trims, and styles hair for clients. Most barbers also provide facial hair maintenance, custom shaves and other grooming services. The goal of a barber is to make each client feel comfortable and at ease while their hair is being cut or styled. The barber also seeks to ensure that the client is happy with his or her hairstyle, length and color or his new facial hair style. Barbers cut, trim, shape, and taper their clients' hair. They usually use tools such as scissors, clippers, razors, and combs. When a barber grooms a client's facial hair, he will apply lather to the area to be shaved, usually the beard or hair contour. He will then remove the unwanted hair using a razor. Barbers may also provide other services such as applying lotions, shampooing, styling, coloring hair, and singeing. In addition, a barber may perform massage services for the scalp, neck, and face. Barbers will typically bill the client, accept payment and tips and finalize the sale. They may also sell the client products such as shampoo, lotions, or tonics that will meet their styling, grooming and maintenance needs between appointments. They will clean their work area and tools according to Arizona's safety and sanitation requirements after each appointment.

This comprehensive 1500 hour program prepares the student with the knowledge and skills necessary to complete the examination for a Barber License in the State of Arizona.

COSMETOLOGY

CS10A

If you crave a career with flexible schedules, the opportunity to be creative, and the ability to control your income limits, then invest in an exciting and rewarding career in Cosmetology. Job growth in cosmetology is expected to rise at a rate of 13% between 2012 and 2022 (BLS, 2015). Cosmetology students learn the foundation of haircutting, color, texture, hairstyling, skin care and nail care. Students will progress to advanced techniques that are relevant while learning in both a classroom setting and in the student salon. The Student Salon is open to the public providing real time opportunities to practice technical skills in hair and nails. Students will also interface with industry experts, participating in trade shows, events and workshops. The successful completion of the 1600 hour Cosmetology program, will prepare students to take the Arizona State Board of Cosmetology Examination.

COSMETOLOGY/AESTHETICS EDUCATOR CS40A

As a cosmetology/aesthetics instructor, you can empower, inspire and educate students to become the best cosmetologists/aestheticians that they can be. Attending a cosmetology/aesthetics training program in Arizona ensures that you have the knowledge and skills necessary to fully instruct students in the art of cosmetology. You will take courses that will expose you to theoretical and scientific concepts in the beauty industry and prepare you for teaching these concepts to students. According to the BLS, vocational educators earn a median salary of \$55,130 a year. If you only teach one or two classes a semester you can expect to earn median wages of at least \$23.25 an hour. As a cosmetology/aesthetics instructor, you can find open positions in beauty schools, private colleges and public universities.

Occupational Profile: www.onetonline.org/link/summary/25-1194.00

Gainful Employment Disclosure: N/A

GEORGE BRAZIL PLUMBING SERVICE & REPAIR TECHNICIAN PLB10A

The Plumbing Service and Repair Technician Program is a comprehensive program designed to train students to become a qualified technician in plumbing service, repair and plumbing installation. The program offers a learning environment combining many distinct, but interconnected areas in the plumbing field including: plumbing theory, hands-on assessments, construction trades safety, residential water quality, green technologies, sales and marketing strategies, professionalism, problem solving, customer service and communication skills, and job readiness strategies. Certifications will be offered to program graduates by George Brazil Plumbing and the National Center for Construction Education and Research (NCCER). Additionally, many manufacturer specialty certifications may be awarded. Graduates will be qualified for employment in the plumbing field as an entry level plumbing service and repair technician or entry level plumbing installation technician.

HEATING, VENTILATION, AIR CONDITIONING & REFRIGERATION (HVACR) AC10A

The US Bureau of Labor Statistics projects that HVAC Technician jobs will grow over 20% in the next 10 years, almost twice the average for all careers. Students in this program are provided training in electrical maintenance, residential, commercial and industrial wiring, appliance repair, air distribution and balancing, and repair of electronic controls and circuits. Air conditioning students learn the skills required to install service and repair air conditioning, refrigeration and heating equipment. The program prepares students for the EPA Examination for refrigerant licensing, which is required to become a HVAC Technician. In addition, students will be eligible to sit for the NATE Certification Exam post completion of the program.

PRACTICAL NURSE (PN)

PN10A

Licensed Practical Nurses (LPNs) work under the direct supervision of a physician or registered nurse and form an integral part of the health care team. Professional duties of the LPN include: client assessments; medication administration; providing therapeutic, diagnostic, nutritional and wound care support; collaboration with the interdisciplinary care team; contributing to the client plan of care; and providing client and family healthcare education. This program includes a comprehensive course of study that combines theory with clinical practice. The curriculum is designed to provide qualified individuals an opportunity to acquire the knowledge, skills and attitudes that will enable them to become safe and competent practical nurses. Program completers are eligible to apply for the Arizona State Board exam to secure licensure.

Industry/Program Certification: Arizona Board of Nursing #96-130

PRECISION MACHINING & MANUFACTURING TECHNOLOGY MT10A

The Precision Machining & Manufacturing Technology program is designed to teach the technical skills necessary to ensure students are prepared for the entry level basics in set up and operation of manual and computer numerical control (CNC) machine tools. Students will learn to read and interpret blue print drawings, learn the proper use of precision measuring tools used by machinists, die and mold makers, and skilled professionals in the manufacturing industry. Students will develop leadership, management, and quality control skills while working towards nationally recognized NIMS certifications.

Occupational Profile: www.onetonline.org/link/summary/51-4041.00

Gainful Employment Disclosure: www.evit.com/adult_career_training_programs/consumer_information

Career Pathways: Manual & Computer Controlled Machinist, Tool & Die Maker, Mold Maker, Aerospace, Medical & Robotic industries, Jewelry making, Engineer

Prerequisite: High School Diploma or GED, Proficiency in Basic Reading and Math

STERILE PROCESSING TECHNICIAN MC51A

Sterilization technicians are allied health professionals responsible for decontamination, inspection, assembly and sterilization of surgical instruments and surgical supply. Sterile processing technicians work under close supervision of the operating room team in providing fully functional, sterilized and ready-to-use surgical equipment. They work closely with any other department in the health-care facility where there is a need for sterilized items that are used on a patient. In today's world of health care, a Sterile Processing Department must be filled with highly trained and skilled professionals who are familiar with all aspects of the job, surgical procedures and infection control procedures and practices. The sterile processing technician must possess a great knowledge of surgical instruments, surgical supply, sterilization methods and sterile storage. EVIT is proud to be one of the few educational institutions with a fully functional sterile processing lab as well as all the necessary equipment that will help students acquire the skill sets needed to be valued leaders in the profession.

Occupational Profile: www.onetonline.org/link/summary/31-9093.00

Gainful Employment Disclosure: www.evit.com/adult_career_training_programs/consumer_information

Licensure Information: www.iahcsmm.org/certification.html

Career Pathways: Central Processing Technician (CPT), Central Service Technician (CST), Central Sterile Supply Technician (CSS Technician), Certified Registered Central Service Technician (CRCST), Instrument Technician, Sterile Preparation Technician, Sterile Processing and Distribution Technician (SPD Technician), Sterile Processing Technician, Sterile Technician, Sterilization Technician

Prerequisites: High School Diploma or GED, Proficiency in Basic Reading and Math. Must provide proof of health insurance

SURGICAL TECHNOLOGY ST10A

Surgical technologists are Allied Health Professionals, who are an integral part of the team of medical professionals providing surgical care to patients. Surgical technologists work within a surgical team to facilitate the safe and effective conduct of surgical procedures, ensuring that the operating room environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety. Surgical Technologists possess expertise in the theory and application of sterile and aseptic technique and combine the knowledge of human anatomy, surgical procedures, along with the implementation of instrumentation and technology to facilitate a physician's performance of invasive therapeutic and diagnostic procedures. The Surgical Technology Program mission is to train competent, employable, entry level Surgical Technologists that meet the healthcare standards and needs of the community in a variety of settings.

Occupational Profile: www.onetonline.org/link/summary/29-2055.00

Gainful Employment Disclosure: www.evit.com/adult_career_training_programs/consumer_information

Licensure Information: www.nbstsa.org/csfa-first-time-applicants

Industry/Program Accreditation: The Commission on Accreditation of Allied Health Education Programs (CAAHEP) and the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA). Contact: 727-210-2350. 1361 Park Street, Clearwater, FL 33756

Program Certifications: National Board of Surgical Technologists and Surgical Assistants (NBSTSA). The Association of Surgical Technologists (AST), Contact: 303-694-9130. 6 West Dry Creek Circle, Suite 220, Littleton, CO 80120

Career Pathways: Certified Surgical Technologist

Prerequisites: Advising with Surgical Technology Staff, High School Diploma or GED, Human Anatomy & Physiology/Medical Terminology for the Health Care worker. Both classes must have been completed within a 3 year period. Medical Experience Recommended but Not Necessary. Must provide proof of health insurance.

WELDING

WD10A

One of Arizona's three International Accredited Test Facility that offers welding certifications through the American Welding Society (AWS) on site. Students will learn basic skills in the SMAW, GMAW (MIG), GTAW (TIG) and OFC processes. During this course students will weld in all positions and practice for AWS certifications. Using NCCER and AWS Sense curriculum students complete modules in each welding process and will perform Welder Performance Qualifications (WPQ) in accordance with AWS standards. When students pass WPQ's they will receive an internationally recognized AWS certification. Other program modules include: Shop safety, print reading, welding symbols, Welding Procedure Specifications (WPS), theory and fabrication. Graduates can work in a variety of welding industries such as; Mining, Ornamental iron, Structural steel, Shipbuilding, Pipe welding, Aerospace, Weld inspection and Sales. The EVIT welding department's primary goal is to align our program with industry and prepare students for entry level employment in the welding industry. Instructors are NCCER certified. **Apprenticeship Option is available for this program.**

Occupational Profile: www.onetonline.org/link/summary/51-4121.06

Blended Certificate Programs

All Fees Listed Are Subjected to Change

3D ANIMATION

DA10

Bring creative ideas to life by combining artistic skills and design techniques to develop 3D animation, modeling and gaming projects. Develop skills in storyboarding, character development, modeling, lighting and drawing using industry-specific software such as 3ds, Max, Maya and game engine. Second-year students specialize in video game design or animation, work with outside clients and participate in internships or externships to build strong industry resumes and credentials. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$120.00	Total	\$4,120.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$195.00	Total	\$4,195.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

AESTHETICS

CS14

Specialize in the science of skin care and makeup application. Learn techniques for exfoliation, skin analysis, deep pore cleansing, specialized treatments, facials and waxing. Prepare to take the Arizona State Board of Cosmetology exam for Aestheticians after completing this 600 hour program.

(Length of Course 2 Semesters)

Tuition	\$4,996.00	Supply Fee	\$554.00	Total	\$5,550.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

AUTOMOTIVE TECHNOLOGY

AM10

Train for a career in the automotive industry through National Automotive Technicians Education Foundation (NATEF) certified instruction and Automotive Service Excellence (ASE) certified instructors. This program focuses on employment standards that prepare students for the workforce. Learn all aspects of auto repair and maintenance including engine performance, engine repair, electrical systems, brakes, steering, suspension and alignment. Practice and master hands-on skills on late-model automobiles and participate in work-based internship and job shadowing. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$160.00	Total	\$4,160.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$160.00	Total	\$4,160.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

AVIATION

AV05

Explore the exciting world of aviation through classroom experiences and hands-on lab work. Learn about the history of aviation, job opportunities and "hands-on" skill sets required for careers in areas such as air transportation operations, air traffic control, airframe and power-plant maintenance, professional pilot, airport management and unmanned aircraft systems (UAS) operations. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$229.00	Total	\$4,229.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$230.00	Total	\$4,230.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

BANKING AND FINANCIAL SERVICES

BK10

Prepare for a career in the banking industry, working in a bank branch, credit union and potentially as a bank executive. Student will learn the back-end and front-end operation of a bank or credit union branch. Student will learn to analyze customer profiles and to sell bank product. The course includes both an in-class academic component, as well as a hands on experience that includes the operation of an actual credit union branch under the supervision of banking professionals. **(Length of Course 2-4 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$90.00	Total	\$4,090.00
----------------	------------	-------------------	---------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

BARBERING

CS15

Students in this course will learn fundamentals of barbering; sterilization, sanitation and safety; massage and skin care; perm weaving and chemical relaxing; shampoo and scalp treatment; hair tinting, cutting and styling; and shaving, honing and stropping. The course includes 1,500 hours of instruction in theory and practical skills required for licensure by the Arizona State Board of Barbers. Theory and practical precede lab activities, and students must complete 250 hours in freshman classroom and pass a final that demonstrates competence in theory and practical skills before being allowed to participate in lab activities. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,996.00	Supply Fee	\$529.00	Total	\$5,525.00
Tuition (2nd Yr)	\$4,996.00	Supply Fee	\$285.00	Total	\$5,281.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

BEHAVIORAL, MENTAL AND SOCIAL HEALTH SERVICES

MC65

Prepare for a career in behavioral and social health as a behavioral health technician or mental health technician. The certification can lead to job opportunities as a case manager, parent aide, family advocate, respite worker, and paraprofessional counselor. Certified Mental Health Technicians may work as part of a team and care for emotionally disturbed and mentally ill patients, job opportunities are found in both public and private hospitals, nursing homes, and residential mental health facilities. Duties may include coordinating mental health services, patient interviews, treatment documentation as well as helping patients with their personal needs. This two semester program will provide foundational modules in care delivery systems, legal/safety requirements, introduction to basic mental and problem solve and promote well-being. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$430.00	Total	\$4,430.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

CISCO NETWORKING AND CYBER SECURITY IT12

Students in this course will be introduced to the computer-networking field and the field of cyber security. Instructors cover network/cyber terminology and protocols, communication fundamentals in data networks Internet security. Students study the Open Systems Interconnection (OSI) model, using a top-down approach, cabling and cabling tools, basic Cisco router, configuration, Ethernet technologies, Internet Protocol (IP) addressing and an overview of Internet Protocol version 6 (IPv6), basic configuring and testing of the network, standards and network penetration. The course prepares students for the Cisco Certified Entry Level (CCENT) examination as well as a cyber-security fundamentals certification. Students also learn the skills needed to pass the CompTIA Security+ Exams, which ensures that candidates will apply knowledge of security concepts, tools and procedures to react to security incidents; it ensures that security personnel are anticipating security risks and guarding against them. **(Length of Course 2-4 Semesters)**

Tuition (2nd Yr)	\$4,000	Supply Fee	\$300.00	Total	\$4,300.00
------------------------------------	---------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

CODING AND MOBILE APP DESIGN IT13

This program will prepare students interested in pursuing a career in computer programming or mobile application design. Students are challenged to develop computer programs in multiple formats for use in the robotics industry, computer information systems, mobile application design and business organizations. They will also learn the skills necessary to communicate clearly, collaborate with peers, solve logistical problems and present findings. This program will introduce students to embedded technology concepts through combination of classroom lecture and project-based on computer science principals. Students can complete the program with a java script certificate as well as a variety of other certificates.

Tuition	\$4,000.00	Supply Fee	\$247.00	Total	\$4,247.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

COMMERCIAL BAKING AND PASTRY ARTS CU20

Learn the tools-of-the-trade and professionalism necessary to gain employment as a baker, pastry chef or business owner. Baking instruction focuses on making cookies, cakes, chocolate confections, tarts, breads and plated desserts. The class also advances to cake decorating, pastries, plate painting, individual desserts and wedding cakes. Students manage an on-site retail bakery and pastry shop to learn what it's like working in the industry and with the public. EVIT's Commercial Baking and Pastry Arts program is accredited by the Accrediting Commission of the American Culinary Federation Education Foundation.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$184.00	Total	\$4,184.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$169.00	Total	\$4,169.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

CONSTRUCTION

CT10

Learn to build a structure from the ground up! Develop hands-on skills in various disciplines of commercial and residential construction including electrical wiring, plumbing, masonry, framing, roofing, drywall and finish work. Students also gain an understanding of safety, the use of hand and power tools, blueprint reading, estimating and construction operations. Students will have the opportunity to obtain OSHA10 hour card in Construction. Industry-driven curriculum and internships prepare students for employment, apprenticeship programs, community college or a four-year degree institution. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$150.00	Total	\$4,150.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$125.00	Total	\$4,125.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

CRIMINAL JUSTICE

LE10

Prepare for a career in the Criminal Justice system. Training basic crime scene investigations, forensics, report writing, court functions, jail functions, interrogation skills, police functions and physical fitness. Students will gain a strong foundation in interpersonal and soft skills, which will help students entering a career in the criminal justice systems, such as law enforcement, courts, jails, correctional institutions, and probation/parole. The program will prepare students for the military service, a college degree, or employment with criminal justice systems. Students who reach the age of 18 before completing the program may earn their Arizona Security Guard Card, allowing them to work in the field upon completion. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$178.00	Total	\$4,178.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$138.00	Total	\$4,138.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

CULINARY ARTS

CU10

Explore your passion for cooking while developing skills in all facets of the food service and hospitality industries. Training is provided in culinary arts (a la carte & quantity cooking), commercial baking and dining room operations. Students gain hands-on experience working special functions, breakfasts, luncheons and dinners in the culinary banquet hall. Students also have the opportunity to participate in culinary competitions and work with many of the top chefs and restaurants in the valley. EVIT's Culinary Arts program is accredited by the Accrediting Commission of the American Culinary Federation Education Foundation.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$191.00	Total	\$4,191.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$206.00	Total	\$4,206.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

DENTAL CAREERS

MC60

Prepare for a dental career by learning about dental offices operations such as instrument recognition and sterilization, radiography and laboratory processes, preparing patients for examinations and assisting with operational procedures. First semester, students concentrate on classroom learning, hands-on skills practice and x-ray certification. During the second semester, skills and experience are gained through internships at local dental offices. Students are required to complete a 100-hour internship. Flexible hours may be required depending upon clinical availability. Student must provide their own transportation to job shadowing or internship site. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$455.00	Total	\$4,455.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

DIESEL TECHNOLOGIES

AM63

The diesel and heavy equipment industry is one of the fastest growing fields in the transportation business today. Diesel mechanics work on a wide variety of diesel engines including those found in buses, trucks, RVs, bulldozers, cranes, farm tractors and trains. Students develop the skills needed for entry-level positions through classroom and hands-on learning. Instruction is provided on cooling systems, starting and charging systems, engine lubrication, maintenance and repair, and basic mechanical performance.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$170.00	Total	\$4,170.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$170.00	Total	\$4,170.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

DIGITAL DEVICE DIAGNOSTICS & REPAIR

IT11

Learn the skills necessary to obtain ComTIA A+ Certification, an International industry credential for computer service technicians. Hands-on classroom training includes installation, configuration and upgrading of hardware and software. Students learn to maintain motherboards, processors and memory. They develop troubleshooting and basic network skills. Students also learn how to repair devices such as iPad, iPhones, gaming consoles and many more. Students participate in SkillsUSA and Arizona Students Recycling Used Technology (AZstRUT), which teaches valuable skills and provides quality refurbished computers to schools and non-profit organizations across Arizona. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$220.00	Total	\$4,220.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

EARLY CHILDHOOD EDUCATION CC10

First year ECE I students focus on the early childhood philosophy, childhood development, career opportunities and current issues in health, nutrition and curriculum development. They gain hands-on experience in lab settings including our on-site lab school operated by Bright Ideas and off-site at a variety of Head Start programs. Second year ECE II participate in a lab setting and focus on child guidance techniques, family dynamic, observation/assessment, advance curriculum development and classroom management. This self-paced performance-based program allows for advancement that meets individual academic needs. Qualified student have the opportunity to earn their Child Development Associate National Certification upon completion of this program and the necessary requirements. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$135.00	Total	\$4,135.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$135.00	Total	\$4,135.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

EDUCATION PROFESSIONS ED10

Identify philosophies and develop a leadership and teaching style. The curriculum includes a survey study of the teaching profession and educational theories of learning. Conduct research, create lessons and present concepts. Participate in various job shadowing experiences. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$105.00	Total	\$4,105.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

EMERGENCY MEDICAL TECHNICIAN MC55

People's lives often depend on the quick reponse and competent care of Emergency Medical Technicians (EMT's). Learn to recognize the signs and symptoms of illness and injury, assess and treat patients, administer oxygen and provide basic medical care. Training consists of coursework and hands-on experince designed to prepare students to administer immediate care, stabilizing and immobilization of victims in emergency situations. Upon course completion, students are prepared to take state and national EMT examination.

Please note: Student must be 18 year old by November 1 following course completion and a U.S. Citizen or legal resident to take certification exam. DHS requires that students receive course completion certificate within six months of the course. Students are able to complete testing, but they cannot cerified in Arizona until they are 18. Students may be randomly drug testes. (Length of Course 2 Semesters)

Tuition	\$4,000.00	Supply Fee	\$432.00	Total	\$4,432.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

FASHION, INTERIOR & TEXTILES FIT10

This dynamic program introduces students to the technical knowledge and skills needed to design, produce, purchase, promote and sell merchandise and accessories. Learn about the elements and principles of design, fabrics and textiles, the use of color and texture, retail theory, visual merchandising, sewing and pattern making. Transform these skills into wearable garments, elaborate sets and window displays, and participate in various EVIT events such as the annual Spring Fashion Show. Qualified students also have the opportunity to participate in job shadowing or internships during their second year of the program.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$205.00	Total	\$4,205.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$270.00	Total	\$4,270.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

FIRE SCIENCE ACADEMY FF10

Prepare for employment in the fire service and learn how to protect, educate and serve the public. Gain experice through various hands-on training skills, including live fire training, search and rescue, high rise tower drills and operation of fire apparatus and equipment. The first year provides an overview of basic fire science fundamentals and EMT program. Second-year students gain experince through physical training, team activites and demonstrations by local, state and federal agencies. Students who complete the program have the opportunity to earn a Wildland Fire Fighter Cerification as well as variety of other certifications.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$280.00	Total	\$4,280.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$496.00	Total	\$4,496.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

GRAPHIC/WEB DESIGN MM30

This program will prepare students interested in pursuing a career in graphic and/or web design through multimedia related fields. Students will be challenged to learn the principals of graphic design, line, shape, pattern, form and color theory. Typography along with digital pre-press and copyright laws will be taught to ensure student success. Students will use Adobe Illustrator, Photoshop and InDesign to manipulate images in unique and creative formats to develop commercial art-related specification sheets for assignments, social media applications and client-based projects. Student work individually and in teams to create real-world projects, building digital portfolios and resumes. Students may also choose to lean the ins and outs of digital printing in EVIT's Digital Print Shops. **(Length of Course 2-4 Semesters)**

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$161.00	Total	\$4,161.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$181.00	Total	\$4,181.00

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

HOME HEALTH AIDE MC77

Home Health Aides, also known as Direct Care Workers (DCW), Personal Care Assistants, Caregivers, or Personal Care Aides, are a valuable part of the health care team. Home Health Aides care for people of all ages who are ill, injured or physically or mentally disabled. Home Health Aides assist clients with self-care activities such as eating, dressing, bathing and grooming needs. Home Health Aides may also help with home management activities such as meal preparation, light housecleaning or laundry. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$185.00	Total	\$4,185.00
----------------	------------	-------------------	----------	--------------	------------

Notes: This Program Does Not Qualify for Federal Financial Aid; Affordable Payment Plans Available

HOSPITALITY MANAGEMENT HM10

Students will learn the principles of operations in the travel and tourism industries, hotel and lodging facilities, food services, recreation, and hospitality planning and business operations. Emphasis is placed on critical thinking, practical problem solving and entrepreneurship opportunities within the field of hospitality. Core academic application of math, science and language arts are emphasized as appropriate in the hospitality industry. **(Length of Course 2 Semesters)**

Tuition	\$4,000.00	Supply Fee	\$209.00	Total	\$4,209.00

RADIO/AUDIO PRODUCTION

RB10

EVIT's Radio/Audio Production program is home to KVVU, 88.7 FM the Pulse, a fully functioning non-commercial radio station, run by students. KVVU features long and short form student-produced programming and commercial-free music. The students also work on the station's website, develop apps, apply social media and assist with market research. The radio station is the center of the Radio/Audio Production program. Depending on their interest, students learn audio production, on-air performance, programming, copy writing, promotions and marketing, broadcast engineering, interview techniques and much more as they run KVVU. Students now have the option to focus on sports broadcasting. EVIT's 88.7, The Pulse is an official radio station broadcaster of AIA high school sports.

(Length of Course 2-4 Semesters)

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$193.00	Total	\$4,193.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$75.00	Total	\$4,075.00

VETERINARY ASSISTANT

MC44

Prepare for a career in the veterinary field while learning the skills that will allow you to work with all creatures, large and small. Integrate your love for animals with medical knowledge such as taking radiographs, venipuncture, administering medications and vaccines, animal restraint, surgical preparation and surgical assisting, animal dentistry, laboratory procedures and general exams. During the first 3 semesters students focus on anatomy and physiology of human and animal species, hands-on skills and practical applications. During the fourth semester students improve upon their skills through job shadowing and/or internships at local shelters, small and large animal practices and wildlife facilities. Students will be exposed to a variety of well and sick animals. Students must provide own transportation to job shadowing and/or internship site. Flexible hours may be required depending upon clinical availability. Students may be randomly drug tested.

(Length of Course 4 Semesters) Please note: this class is only offered at the EVIT East Campus.

Tuition (1st Yr)	\$4,000.00	Supply Fee	\$160.00	Total	\$4,160.00
Tuition (2nd Yr)	\$4,000.00	Supply Fee	\$358.00	Total	\$4,358.00
